Supplementary Table S1: descriptive statistics for dataset used for main analysis and ancillary analyses for the article "The geography and evolution of language isolates"

	n			mean	median	standard deviation
Main analysis	5,251	Distance to mountain area with alpine conditions	Isolates	855 kms	489 kms	1009 kms
			Non-Isolates	1655 kms	1255 kms	1488 kms
		Distance to sea	Isolates	409 kms	309 kms	368 kms
			Non-Isolates	442 kms	346 kms	383 kms
Ancillary analyses	7,117	Distance to mountain area	Isolates	188 kms	53 kms	313 kms
			Non-Isolates	188 kms	27 kms	323 kms
		Distance to sea	Isolates	300 kms	137 kms	344 kms
			Non-Isolates	345 kms	184 kms	372 kms
